

## THE NEW

## RAYMOND RECORDER

THE RAYMOND LION

From behind a stack of case history reports on his desk, the eye specialist looked over at the army major sitting across from him. The major, a doctor himself, sensed that the results of the examination were difficult to report.

"What do you know about Braille?"

"Not very much. I'm afraid," the major answered apologetically.

"Well," said the specialist, "you'd better learn it while you still have your eyes."

Here was a situation with all the makings of a personal tragedy, but Major Alfred E. Banks turned it into a personal triumph. He labored at the study of Braille code for several years and came up with an invention that enables blind persons to write Braille at shorthand speed.

Fortunately, the specialist was wrong in his diagnosis. Dr. Banks, who returned from France in 1919 with an eye ailment, did not lose his sight.

He continued his work on a pocket Braille writer for 12 years and then brought it to the attention of the Lions Club of San Diego in 1944.

Always on the alert for a benevolent project, the Welfare Foundation of the Lions Club of San Diego spotted the Braille writer and decided that it should be mass-produced and distributed to the blind throughout the world.

In giving the invention to the Welfare Foundation, Dr. Banks made three stipulations: (1) That no blind person should pay more than \$5 for a Braille writer; (2) That distribution must be made to the blind throughout the world; and (3) That no individual or organization should profit by the sale of the machine.

During his study of the 150-word code, Dr. Banks became exasperated with the current methods of Braille writing. They were too slow, too complicated. Blind students, for example, were at a great disadvantage in taking notes because of the time-consuming mechanics of Braille writing. It was this dissatisfaction that drove Dr. Banks in his search for a better method.

With the device he developed, a blind person can write at a much greater speed than was possible using the stylus and slate method. One adept blind person has written Braille on the machine at 140 words per minute — as fast as a skilled, sighted stenographer. Blind students and professional people are aided immeasurably by the Braille writer, which, in the words of Dr. Banks, "places pencil and paper in the hands of the blind".

Small and light, the Banks Braille writer weighs only 18 ounces and is compact enough to fit in a coat pocket or purse. It has six keys and a spacer, and writes directly on a narrow strip of paper tape. Characters are read from the tape without transfer.

Mr. and Mrs. Bruce Galbraith entertained at a Rook Party with Mr. and Mrs. Ted Meeks taking top score and Mr. and Mrs. Ralph Meldrum consolation.

The hostess served a lovely lunch at the close of the evening.

The Raymond Music Club met at the home of Mrs. Emma Dahl with Mrs. Doris Court assistant hostess.

The executive offices were reorganized with Gen Hawkins being president for the coming year, Joyce Harker vice-president and Ruby Holland Secretary.

The name of Emma Dahl was drawn at this meeting to have the doll presented by S. B. Card for the Best Decorated car in the Parade.

After their practice a lovely lunch was served.

## 'Give a Happy Ending'

With the provincial annual Red Cross campaign some \$40,000 below quota, the Alberta Division is launching a new appeal in September in an effort to make up the difference. Farmers throughout Alberta are being asked to give grain when making their deliveries this harvest.

The national quota for Alberta this year was \$300,000, with an extra \$100,000 for the new Alberta Red Cross Crippled Children's Hospital.

While the province has reached the national quota, there is still a deficit of \$40,000 in the hospital quota.

Heavy snows prevented canvassing the rural areas during the past March campaign with the result that many regular subscribers to Red Cross

were unable to make their regular contributions. Red Cross officials are sponsoring the present appeal as a simple means of allowing everyone to help in the work of the Alberta Red Cross Crippled Children's Hospital which has treated more than 8,000 children since this Red Cross work was undertaken in 1922.

The Hospital is for children from all over Alberta, the North West Territories and Peace River areas.

All grain companies are enthusiastically endorsing the appeal, and have assisted in working out the details. With the permission of the Canadian Wheat Board, farmers, on making deliveries may have a cash ticket for their donation made out to the Alta. Red Cross Society. Although the Red Cross asked that farmers be allowed over quota, the Canadian Wheat Board was unable to grant this concession.

The appeal started at 10:30 a.m. September 4 when Mr. Roy Marler, president of the Alberta Federation of Agriculture, presented the first 10 bushels of grain to Lieutenant-Governor J. J. Bowlen, patron of Alberta Red Cross.

It is expected that many farmers will welcome the opportunity of answering the appeal slogan to "Give a happy ending to the story of a crippled child".

Mr. and Mrs. Henry Jensen and Mrs. E. S. Hawk were visitors in Edmonton last week-end.

## Town Adopts "Big Stick" Policy

The officials of the Town have decided to take a new course in their fight to collect tax arrears. From now on they will employ "the big stick" method of extracting their just due from delinquent land-owners.

It is the decision of the authorities to take court action to collect outstanding tax arrears. Already one case has been filed with thirty or forty more being readied.

There is still time for some of Raymond's citizens to save themselves a little money and the bother of court proceedings. The Town Office is open daily, except Sundays, and the Secretary or his assistant will be glad to take your money.

Mr. and Mrs. Tennyson Smith of Salt Lake are guests at the home of Mr. and Mrs. S. B. Smith.

## Scholarship for Harker

Word has been received from Mr. Cairns, Asst. Registrar of the University of Alberta, that a U of A Matriculation Scholarship has been awarded to Laurie Harker. This is one of three scholarships offered by the University and covers tuition for three years and a grant of fifty dollars for the first year. If the student's annual marks are 85% or over he receives another fifty dollars per year.

We are happy to see that the efforts of this seventeen-year-old boy who graduated from the local high school with an average of 92% are being rewarded. His teachers are also to be congratulated for their assistance.

Wednesday evening the Priests Class of the Fourth Ward honored Veda Gilchrist at a Farewell Party at the home of Bishop and Mrs. Snow.

Mrs. Gilchrist, Jim Bridge, who formerly taught this class, and his wife Margaret, and the young men's partners enjoyed seeing the colored pictures taken of the boys on their class trips and projects shown by Dr. Orson Bingham their present leader. Mrs. Bingham was also a guest.

A delicious lunch and the presentation of a Book to the Guest of Honor concluded the enjoyable evening.

## THE NEW RAYMOND RECORDER

## X-Ray Results Here

The results of the Christmas Seal Mobile Chest X-Ray Survey that was held here from July 21st to 27th have been received and the results showed remarkably how healthy the people of this town are as far as T. B. is concerned. 1386 pictures were taken which is about 30% less than were taken last year. At least 2,000 persons passed up the opportunity of having this work done this year. Well over 4,000 cards were sent out but less than half of the people receiving them showed up. The best way to fight the white plague is to catch it in its earliest stages and this free service is the best way to do just that.

Females outnumbered males 720 to 647 in having their pictures taken.

Before we give you a breakdown of the results and reprint a letter from C. Robert Dickie, General Secretary of the Alta. T. B. Association, there is one item we wish to draw to your attention — The staff that took the pictures must have known their business because in taking 1386 shots they made every one count and did not spoil one film. Watch next week's paper for the list of local people who were responsible for the smooth way in which this operation was run.

## The Breakdown

Number X-rayed .....	1386
Number of films spoiled .....	0
Number films interpreted .....	1386
Interpretations	
Negative .....	1367
Abnormal .....	19
Total .....	1386

## Abnormalities

Probable pulmonary tuberculosis active .....	
Probable pulmonary tuberculosis inactive .....	
Parenchymal and (or) Hilar Calcification .....	
Further examination requested .....	
Pleurisy active .....	
Pleurisy inactive .....	
Non-Tuberculosis conditions .....	
Total .....	

## The Letter

General Chairman,  
X-Ray Survey Committee,  
Raymond, Alberta.

Dear Sir:

It has been a great pleasure to the Alberta Tuberculosis Association and the Department of Health to serve the people of Raymond and district through our Christmas Seal Mobile Chest X-Ray Unit. Our Mr. E. R. Baxter, Director of Surveys, has asked me to convey to you and to your committee our sincere thanks for the work done in making the Survey a success.

There were 1,386 free chest X-rays given to the public while the unit was at Raymond, and the gratitude of your fellow-citizens is due to you and all who assisted in the campaign. I am sure they must be well aware of your notable contribution to the health and welfare of the community.

Thanks again, and with all good wishes, I am,

Most sincerely yours,  
C. Robert Dickey  
General Secretary

## Rain Didn't Stop The Turkey Shoot

The Turkey Shoot sponsored by the Legion and the Raymond Gun Club on Monday, September 3, at the Fairgrounds, was a decided success in spite of the rainy weather. 41 shooters tried for the turkeys and hams that were offered alternately as prizes.

Probably one of the most unusual things about the shoot was the sharp-shooting of an eleven-year-old boy — Freddie Wilde by name. Young Mr. Wilde entered in one event with nine adults and after shooting fourteen times emerged the very proud and happy winner.

Freddie was just taking a leaf from father Herbe's book though by coming out a winner. There were three participants in the shoot who won three events and Herbe was the only one to knock off three turkeys. Bill Schniedt and a visitor from Milk River, Mr. Hillmer, were the others to receive the triple crown of victory.

Shoot manager Mel Depew wishes to thank all those who participated in this event and extends an invitation to come again.

The Raymond Gun Club will sponsor another shoot on Wednesday, Sept. 19th, at the Fairgrounds, commencing at 1 p.m. Proceeds from this event will go toward the purchase of an automatic trap and to improve the shooting grounds.

An invitation is extended to all.

Mrs. Margaret Bridge entertained a few friends last Thursday night in honor of her sisters Marion Allen and Mrs. Louise Kenney.

A lovely lunch was served by the hostess.

## Considerable Damage Caused By Fire To Loren Larson Home

Raymond has a right smart Fire Department that they can be proud of. After an alarm is turned in it isn't very long before all hands are at the scene of the fire and working conscientiously and skillfully to extinguish the blaze.

Evidence of this was shown at 12:30 Thursday afternoon when the Brigade answered a call to the Loren Larson home. Five minutes after Mrs. Larson phoned in the alarm the firemen were at her door. A fire, of undetermined origin, started in a cupboard

and by the time Mrs. Larson got home a luncheon the house was completely filled with smoke. It was extremely fortunate that all windows and doors had been left closed so that the fire didn't have too much of a chance to really get going. As it was, extensive damage was caused by the smoke and terrific heat generated by the closed-in fire. All walls in the house will have to be re-done with considerable repair work required in the kitchen. All clothes, including the bedding, in the house were turned brown by the smoke. What a washing and dry cleaning job!

The Larsons were fortunate in having insurance.

Mr. and Mrs. Larson wish to extend their heartfelt thanks to all the neighbors who were so kind and helpful and especially to the men of the fire department. Mrs. Larson says that much credit is due these men who did such a fine job of confining the blaze and extinguishing it with a minimum of water and property damage.

We say sincerely: "Three cheers for the Fire Department".

Garth Evans left last Saturday for Denver, Colorado which will be his headquarters; working from there in six surrounding States for the Spudnut Company.

A few friends joined Mrs. Chris Tollestrup at her home for a quieting party last week. A very enjoyable as well as busy time was had.

Mrs. Marshall Hervey entertained a number of friends at her home Tuesday evening for their regular meeting.

A very tasty lunch was served.

## Stake MIA Convention Held Here Last Week

Eight General Board members from Salt Lake were present last Thursday evening for the Taylor Stake M. I. A. Convention. Those in charge were gratified with the exceptionally large turnout despite the inclement weather. When the roll was read it was found that all the Young Ladies Officers and teachers were present.

At six-thirty the visitors met with the Stake Board and Priesthood Advisors giving them much information and instructions; advising them to make use of all abilities available and when a job has been well done not to hesitate to congratulate the people responsible.

At six-thirty the visitors met with the Stake Board and Priesthood Advisors giving them much information and instructions; advising them to make use of all abilities available and when a job has been well done not to hesitate to congratulate the people responsible.

Shoot manager Mel Depew wishes to thank all those who participated in this event and extends an invitation to come again.

The Raymond Gun Club will sponsor another shoot on Wednesday, Sept. 19th, at the Fairgrounds, commencing at 1 p.m. Proceeds from this event will go toward the purchase of an automatic trap and to improve the shooting grounds.

An invitation is extended to all.

Mrs. Margaret Bridge entertained a few friends last Thursday night in honor of her sisters Marion Allen and Mrs. Louise Kenney.

A lovely lunch was served by the hostess.

Lee Brewerton, First Counsellor to Earl Zemp in the Young Men's Stake Board, was released with a vote of thanks, in order that he might devote his time to Stake Missionary work. Gordon Anderson was appointed to succeed him.

The Age Group Departments then met, followed by the Activity Departments, with the following enthusiastically giving instructions and ironing out problems: Mrs. Snow met with the Bee Hive Girls and Maids and Drama Leaders; Mrs. Norma Anderson with the Jr. M. Men-Gleaners and Speech Leaders; Miss Lohner the Music Directors; while Verle Scott met with the Scouts, Explorer Leaders and Improvement Era Sales members and Harold Clark instructed the Special Interest Leaders and Athletic Department officers. The Sr. M. Men-Gleaner Leaders and Dance Directors received instruction from Ormand F. Carr and the Executive Officers and Secretaries met Mr. Curtis and Mrs. Longden.

At 9:30 the Young Men and Young Ladies' officers met separately to discuss problems peculiar to their organizations. Miss Lohner spoke on the newly formed Sport Department for the Young Ladies and stressed the importance of having a coach or advisor for them.

The Fun Evening, commencing at 10:15 was made up of demonstrations of the various arts; three impromptu talks from the Speech Department, a new song from the Music Department and a pantomime and impromptu skit from the Drama. The remainder of the evening was turned over to Mr. Carr for dance demonstrations.

The Young Ladies Stake Board were commended for the numerous beautiful floral bouquets they arranged in the Chapel, making an effective contrast to the unwelcome weather outside.

Mr. and Mrs. Ken Stone entertained a few friends at a quiet evening at their home.

Mr. and Mrs. Maurice Heninger of Idaho Falls were guests at the home of Mr. and Mrs. W. A. Heninger over the Labor Day week-end.

Sunday night after Church Mr. and Mrs. Ken Stone entertained a few friends at a quiet evening at their home.

A delicious lunch was served by Mrs. Stone.

## Don Sabey Marries In Salt Lake

A late-summer wedding was solemnized in the Salt Lake Temple on Thursday, August 30th, when Karen, youngest daughter of Mr. and Mrs. J. W. Randall of Ogden, Utah, became the bride of Donnell O'Brien, eldest son of Mr. and Mrs. V. E. Sabey of Raymond. Robert I. Burton officiated.

Following the ceremony a reception was held at the home of the bride's parents. The long living-room was artfully decorated with bouquets of gladioli and summer flowers.

A fan-shaped arrangement of snow-white gladioli flanked by tall white tapers in crystal candleabra formed the background for the bridal party.

The bride was lovely in a gown of white silk satin with fitted bodice and bouffant skirt with panels of applied lace, a sweetheart neckline and lily-point sleeves. A fingertip veil cascaded from a Juliet cap trimmed with lace and seed pearls. Her bouquet was a white orchid encircled by stephanotes.

Mrs. LeRoy H. Thorsted, sister of the bride, and Mrs. Walter K. McCormick of Los Angeles, attending matrons, were charming in identical gowns of silk satin with a corsage of white begonia and the mother of the groom wore a dinner gown of steel-grey crepe with a corsage of pink begonias.

LeRoy Thorsted was groomsman and James N. Randall, brother of the bride, ushered.

Following a honeymoon in Water-ton Lakes the happy young couple will make their home in Salt Lake City where the groom will continue his law course at the University of Utah.

The MIA General Board visitors here last week from Salt Lake were guests at the following homes

### B.F. Goodrich BEST IN THE LONG RUN

And the Rains Came  
August, 1951, will long be remembered as the month of the big rain.

For two weeks we had almost nothing but dripping skies. The mess the rain made of roads in the town and district is still very much in evidence and the damage done to crops will reduce this from the expected bumper year to one below average in some places.

Combined with the late spring this "monsoon" season will delay the harvesting of all crops at least two weeks.

Although there may be plenty said against the rain by some, the beet growers are happy about one thing—the rain saved them from the chore of irrigating their beets. Then to, the moisture from this rain will benefit future crops.

In all, 4.72 inches of rain fell during the month of August.

## Special Notice to Employers

AND

## Those Enlisting in Armed Forces

By The Veterans Benefit Act, 1951, passed at the last session of Parliament, the Government of Canada has extended and made applicable the provisions of the Reinstatement in Civil Employment Act, 1946, to all persons enlisting in the Regular Forces of Canada after July 5, 1950, (nineteen fifty) and who serve therein for a term not exceeding three years.

This provision extends also to members of the Special Force who re-engage for service with the Regular Forces, the three-year coverage period beginning with the date of re-engagement.

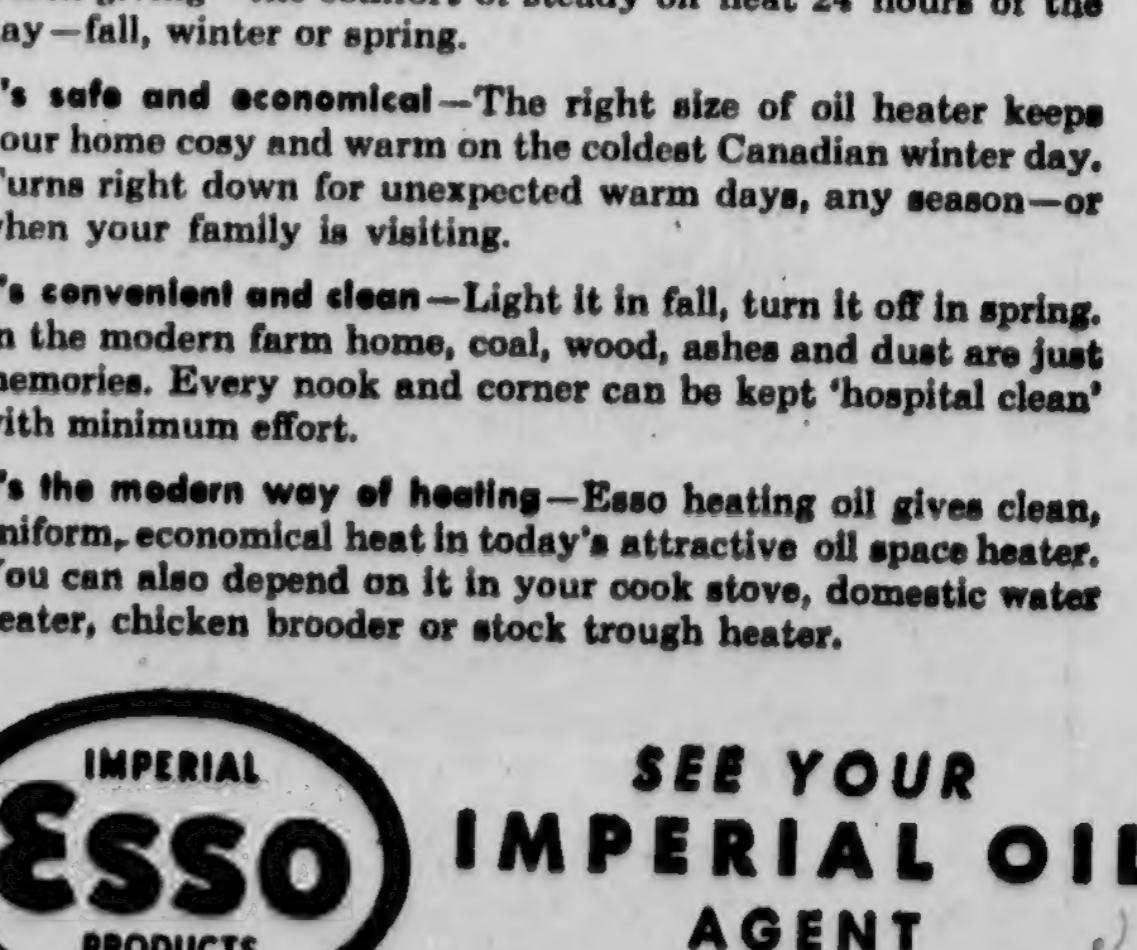

This provision extends also to members of the Reserve Forces who after July 5, 1950, are called out for service with the Regular Forces and serve with the Regular Forces for a period not exceeding three years.

By an Order in Council passed in 1950 under the Canada Forces Act the provisions of the Reinstatement in Civil Employment Act, 1946, were extended to members of the Special Force and members of the Reserve Forces who serve on the strength of the Special Force. The reinstatement provisions of this Order in Council have now been incorporated in the provisions of the Veterans Benefit Act, 1951.

Under the Reinstatement in Civil Employment Act a discharged person may claim reinstatement either verbally or in writing, usually within three months of discharge in Canada or four months if discharged overseas. There is provision for extension of this time when through a condition of health the employee cannot return to his employment this soon, but the employer must be notified in three or four months, as the case may be, and a Reinstatement Officer should be consulted.

REINSTATEMENT OFFICERS ARE LOCATED IN LOCAL OFFICES OF THE NATIONAL EMPLOYMENT SERVICE

Alberta will try out luminous motor vehicle license plates when the new license year starts next spring, in the interest of highway safety.

That's the word from the provincial secretary, Hon. E. F. Gerhart.

He also announced that Alberta will continue to issue two plates per vehicle. He was commenting on Saskatchewan's decision to return to the single plate of the war years.

The minister said next year's plates will be black with pearl grey lettering and numerals which will be luminous to reflect the light from other cars at night.

## GET THE V-8 THAT'S OWNER-PROVED

### ... and now with FORDOMATIC DRIVE

"Test-Drive" the '51 Ford and listen to its famous time-proved, owner-proved V-8 Engine. It's so quiet you can hardly hear it—yet it packs the pace and eager response of a full 100 Horsepower. Here's quality performance with dependability and long life resulting from year upon year of progressive Ford research and development—proven by hundreds of thousands of Canadian owners—over millions of miles—on all types of roads—under every kind of weather and driving conditions. And here's economy, proved in the 1951 Mobilgas Economy Run, with the Ford V-8 the winner over all other cars in its class! Now the Ford V-8 is available with Fordomatic Drive\*—the newest and finest in no-shift, no-clutch driving. Test-Drive the Ford V-8 with Fordomatic Drive\*—owner-proved by tens of thousands of drivers—feel the quality performance and the quality difference. Compare, and you'll buy Ford!

\*FORDOMATIC DRIVE optional at extra cost. Conventional transmission is available as standard, with Ford Overdrive optional at extra cost . . . a choice of three kinds of drive.

**TEST-DRIVE it for POWER  
and New DRIVING EASE!**

NO CLUTCH TO PUSH!  
NO GEARS TO SHIFT!
